

Mani Malekizadeh

Full Stack Developer

Telephone: (+98) 935 235 2200 | Email: mani.co@live.com
Skype: live:mani.co | Website: www.vit.ir

CAREER PROFILE

With the mind of a Front-End Developer and the heart of a 3D Modeler, my unique skillset has, for over a decade, driven modern and minimal design excellence. My expertise across all aspects of modern web development technology, and tools such as JavaScript, HTML 5 and CSS 3, is underpinned by class-leading utilization of JavaScript frameworks and libraries including Vue JS. Keen communication and interpersonal skills facilitate the maintenance of strong working relationships and consistent facilitate target-attainment, both as a pivotal cross-functional team member and individual contributor.

PROFESSIONAL SKILLS AND STRENGTHS

- Agile and Scrum methodology
- Ability to understand user needs and transform them into deliverable outputs
- Single Page Application
- 2D/3D vector modelling and animation
- RESTful API
- Analytical and critical-thinking inform innovative solutions to complex problems
- Detail-oriented and follow-through
- Advanced communication skills (written and oral)
- Client consultancy/engagement
- Technical documentation (Markdown, Swagger, JSDoc)
- Competitive intelligence
- Cross-functional collaboration and team working
- Hybrid app development
- Responsive web design (progressive enhancement or graceful degradation)
- Front-end development
- ECMA script 2019 development
- GraphQL API
- Back End Development

TECHNICAL PROFICIENCIES

Front-end:	HTML5, CSS3, ES6, Vue, Vuex, Reactjs, Redux, Bootstrap, Webpack, jQuery,
Design Tools:	Photoshop, 3Ds Max, AutoCAD, Adobe XD, Vray
Database:	MS SQL, MongoDB
Backend:	ASP.Net Core, Node JS, Express JS (RESTful – GraphQL)
Design Language:	Fluent Design Language, Material Design
Agile Tools:	Azure DevOps, Trello, Jira
Collaboration Tools:	Microsoft Team, Slack
OS	Windows 10, MacOS, Linux Ubuntu
Dev Tools	Visual Studio 2019, Visual Studio Code
Version Control	Bitbucket, Visual Studio Team Service, Github

CAREER HISTORY

Founder and Principal Consultant | VIT (Voice of Information Technology) 2008 – Present
Occupy a complex, multifaceted role as Founder and Principal Consultant, with core duties including (but not limited to):

- Maintaining currency of knowledge in order to deliver class-leading provision, by performing robust research into the latest design standards
- Development and implementation of best practices to ensure efficiency and quality on a company-wide basis
- Proactively maintain product compliance with web standards and accessibility requirements
- Successful development of fully functional responsive prototypes, based on business requirements (using HTML5, CSS3, JavaScript and jQuery)

- Notable record of success in leveraging responsive web frameworks to complete product deliverables ahead of schedule
- Working within Agile and Scrum environments; imbuing the methodologies throughout the organization to drive consistency, efficiency and quality
- Creation of highly effective custom Vue JS components to underpin a pivotal internal project
- Successful translation of the design team's UX wireframes and mock-ups into responsive, interactive features (leveraging expertise in HTML/CSS and JavaScript ES6, ES7 and ES8)
- Utilize ECMA Script 2017 to design and develop GUI for applications and modules
- Creation of hybrid apps, with an emphasis on the use of Cordova and Electron JS to facilitate targeting of all major operating systems, with one code base of Single Page Application
- Designed a highly responsive user interface that is supported by all major browsers and platforms (including mobile phones, tablets and XBOX ONE); increasing user conversion by 50%
- Pivotal in the design and development of software; employing expertise in Agile development practices to enhance team management and achieve more efficient product shipping, with less risk of deviation from business requirements
- Demonstrable ability to undertake effective 2D and 3D modelling of complex designs
- Designing vector graphic assets that are scalable on every device, without losing image quality; producing sharp and high-quality visuals with a significantly lower file size and increased site loading speed
- Highly skilled at creating photo realistic renders using 3D Studio Max and V-ray render engine; useable for virtual world rendering and augmented reality
- Leverage the power of Adobe Photoshop during post-production, to create high quality and aesthetically-pleasing results for clients
- Design, development and maintenance of the www.VIT.ir and www.WindowsCenter.org websites, including:
 - The creation of unique, engaging and targeted content, as editor of all website articles (which number over 2,500). The site achieved the notable status of top 280k in the world and one of the top 7k sites in Iran
 - Creation of the technical aspects of the site, predominantly using WordPress
 - Major contributor to the content of the site through blogging about the latest Microsoft technologies, announcements and applications (translating content for local communities in Iran)
 - Conducting user polls to capture website users' opinions (over 75,000 unique visitors per month) on various technologies and future contents
 - Employ search engine optimization techniques through hot topic Tags to increase website traffic from search engines
 - Publish information regarding cutting-edge technologies and significant IT events around the world, including the Microsoft Build, E3, and CES (live blogging)

EDUCATION

Bachelor of Science in Civil Engineering | 2001 - 2006
Azad University

CERTIFICATIONS

Udemy.com

- JavaScript & ES6
- Scrum Master
- Vue Js

Microsoft Virtual Academy

- C# UWP Application
- XAML
